

Jan. 5, 2021

Dear Unit Owners,

For the near future, The Florida Department of Health will be accepting Covid-19 vaccination requests only by email after the phone system crashed.

Those who are 65 and older can email chd50feedback@flhealth.gov with your name, phone number and date of birth.

"All emails are being received and will be contacted in order with further instructions as appointment slots and options become available".

Appointments are based on dosage availability and patience is appreciated.
